25X1 .. 2 .. On 7 May, the Artillerie Kaserne at the Rummersdorf firing range was 25X1 occupied by about 2,500 troops who were red-bordered black epaulets with ertillery or tank insignia; and an undenormined number of troops who wore red epaulets. At about 9 c.m. on 29 April, more than 200 trucks 25X1 each occupied by 6 or 7 soldiers, arrived from the direct 25X1 25X1 kenwalde. On 30 April, about 200 troops with red epaulets engaged in the construction of field fortifications in the south section of Jager (forest section) No 66. 25X1 3. At 7 a.m. on 7 May, two truck columns, with a total of about 30 trucks and about 36 tank trucks with trailers, were seen entering the barracks installation on Schumke Lake. Some of the vehicles were loaded with timber. The vehicles were occupied by a total of 120 troops. 3 25X1 On 15 May, the Artillerie Kaserge at the Kummersdorf firing range was occupied 25X1 by at least 3,000 troops who wore red-bordered black equalets, including some with tank insignie; and at least 200 to 300 motor vehicles, including 15 to 20 25X1 van-like trucks and A crane trucks. On 15 May, the Eisembehrphonier Kaserne in Klausdorf was occupied 25X1 by about 2,000 to 2,500 troops wearing red-bordered black epaulets with 25X1 artillery insignia. Hwe guns, 60 to 70 trucks, 5 radio trucks and a Type-N microwave radio set were seen in the installation. About 50 soldiers received instruction on the microwave radio set and others received telephone training. the unit, which apperently 25X1 Comments belongs to the 21 Gds AAA Div of 25X1 entire equipment. had been entrained the COFG. 25X1 on 29/30 April a shipment more than 40 boxcars want from Sperenberg to Erkrer [25X1 . There is reason to believe that 25X1 elements of the zo Uds AAA Div were transferred to the newly constructed barracks installations in Auedarsdorf-Kalkberge, northwest of Erkher, where a headquarters building had also been prepared in the Redentunnel. 25X1 it is believed that at least 25X1 one regiment had been transverred. 25X1 Comment. The transfer to the engineer training site Coswig west of 25X1 Wittenberg of the 35th Engr Regt (US) of the Third Gds Mecz Army was repeatedly confirmed. Comments. The information indicates that presumably a signal unit of the 25X1 GOFG, previously stationed in the Golm Kaserne, Potsdem, had been transferred to the barracks installation on Schumke Lake which, except for a rear detail. had been vacated by the 35th Bagr Regt (US).

Comment. The Artillerie Kaserne in Kunnersdorf had been vacated by the 62 AAA Div (US) of the Third Gds Meca Anny by late April. The unit had been transferred to Kochstedt.

The present occupation of the Artillerie Kaserne presumably includes the 56th Motor Trans Regt, previously stationed in the barracks installation in Potsdam-Wildpark; a repair shop of the GOFG, previously stationed in the Golm Kaserne, Potsdam; and

possibly elements of the 2d Gds AAA Div
